

Bed Bug Follow-Up Treatment

With Your Help, We Can Eliminate Your Bed Bugs!

PREPARING THE INFECTED AREA

- Clean up! Get rid of accumulated newspapers, magazines and other “clutter.”
- Move furniture away from wall for easy access to baseboards, draperies, etc.
- Strip the bed of all linen & night-clothes. Put all bedding/clothing into plastic bags or sealed containers.
- ALL AREAS/ROOMS of the building ***must*** be completely prepared when we arrive.

FOLLOWING TREATMENT

- You, your family, and pets, should stay OUT of the treated area for the length of time specified by the Technician ...usually 3 to 5 hours.
- Be aware it may take 4 – 6 weeks for all bugs to be affected/killed by the material applied. The bugs need to come into contact with the material and may not come out of a deep hiding spot for several weeks. Do not panic if you still see some movement following the treatment.
- Please understand that our best service depends largely on ***cooperation from you and/or your tenants***. If the above guidelines are not followed, it will negatively affect the treatment.
- Try to avoid Vacuuming, mopping or any deep cleaning for 4 weeks following treatment.
- Launder bedding daily for 30 days.

FOLLOW-UP TREATMENTS

- A need for more than three applications is rare and would suggest an unusual situation. If this occurs, please call us to discuss your situation further.

****Follow up treatments are performed at 30-day intervals****

As always, ***thank you*** for your cooperation, and for trusting The Pest Patrol Team with your needs. We sincerely appreciate your business.

Pest Patrol enforces a 24-hour cancellation policy for all appointments. If you need to reschedule your appointment you must contact our office ***as soon as possible*** to avoid incurring a \$45 cancellation fee. Once incurred, this fee must be paid prior to scheduling any more services.
